

INSURANCE BACKED PRODUCT GUARANTEE

LOCAL EXPERTISE

De Boer's waterproofing membranes have been installed in Australia and New Zealand for more than 15 years. The product is developed and adapted to withstand the local climate conditions and is fully aligned with local application procedures, standards and regulations.

COMPLETE ASSURANCE

The De Boer Guarantee is fully insured and the insurance premium is fully paid upon delivery of the warranty certificate for the total warranty period. The insurance-backed warranty remains in place regardless of a change in the status of the roofing applicator, manufacturer or building owner.

PROVEN DURABILITY

Long-life membrane samples are consecutively tested by the external laboratory Belgian Building Research Institute (BBRI) and supervised by independent quality-control organization SGS International in different continents and climate zones. The life expectancy of our waterproofing membranes is currently 25 to 35 years based on the actual condition of exposed De Boer membranes worldwide.

4 your roof

De Boer really guarantees a waterproof roof.

FULLY INSURED GUARANTEE

With almost one century on the clock, De Boer takes pride in being the specialist in bituminous roofing membranes. All our waterproofing systems are of the highest quality standard on the worldwide market and covered by a strong and fully insured De Boer Guarantee. All approved applicators, architects or building owners, that have chosen for a De Boer waterproofing system, can rest assured about their decision as the system is fully covered for decennia long!

CHARACTERISTICS

- All De Boer Duo waterproofing systems for roofs are covered internationally when installed by an approved De Boer Applicator.
- Fully backed by insurance company **MS Amlin**, one of the world's largest insurers (www.msamlin.com).
- Insurance premium prepaid in full for the whole insurance period upon delivery of the De Boer warranty certificate.
- No depreciation nor amortization during the whole duration of the insurance covered period.
- Eventual re-assignment: If the property changes ownership, the guarantee can be assigned to the new building owners.
- Financial cover up to 1 Million Euro (€) per project.
